MEMORANDUM FOR SEE DISTRIBUTION

SUBJECT: United States Army Garrison (USAG) Baden-Württemberg Command Policy  
Memorandum #11C, Washing of Vehicles

1. References:

a. AE Reg 200-1, Army in Europe Environmental Quality Program, Chapter 4, Section 4-4, October 2007.

b. Final Governing Standards – Germany, Chapter 4, Section C4.3.2.3.5, February 2010.

2. Purpose: To establish a policy for washing of all vehicles within USAG Baden-Württemberg.

3. Policy: The policy applies to all installations in USAG Baden-Württemberg and includes both military and privately owned vehicles. It applies to all residents of the USAG Baden-Württemberg community. Personnel residing off-post should also contact their Bürgermeisteramt for guidance within their respective community.

4. Below is a “how to” guide to ensure that washing vehicles on-post complies with the applicable host nation environmental ordinances and United States Army Regulations.

a. Privately Owned Vehicles (POVs) can ONLY be washed at locations identified in paragraph 5. If this is not convenient for the resident, then there are alternate locations within the economy similar to American car washes as options.

b. Military Vehicles can be washed at different locations within the community. Authorized locations are identified in paragraph 5.

c. “Mass” POV washings, such as during fund raising events, may only be conducted at the vehicle wash facilities (wash racks) which have functional oil and fuel separators. In these instances, the event MUST be approved by the Directorate of Public Works, Operations and Maintenance Division at least 4 weeks prior to the event.
