Antiterrorism

AOR-Specific Antiterrorism Training

AOR-specific AT awareness training is conducted to orient all Army personnel (including Family members ages 14 and older) assigned permanently outside the continental United States (OCONUS) or those personnel temporarily transiting through, or performing exercises or training in a geographical combatant commander's (GCC) area of responsibility (AOR).

GCCs are responsible for establishing AOR-specific antiterrorism information and training requirements. These requirements are in addition to the annual Level I AT awareness training which all DoD personnel must receive.

Army commanders will ensure all Soldiers and DA civilians associated with their command receive an AOR update prior to traveling OCONUS or within three months of an OCONUS permanent change of station.

Commanders will also offer all Defense contractors supporting their command an AOR update prior to traveling OCONUS.

Additionally, Family members, ages 14 years or older, will receive similar training prior to traveling outside the 50 United States, its territories, and possessions when on official Government orders.

Units maintain a memorandum for record documenting individual training.

Always Ready, Always Alert
Because someone is depending on you
